

Σ ed 3, Ex. 3.02 (p.61)

$$1. \quad \mu = 30 \text{ kg} \quad \sigma = 6 \quad n = 9$$

$$a) E(x) = \mu = \underline{30 \text{ kg}}$$

$$b) SD = \frac{\sigma}{\sqrt{n}}$$

$$= \frac{6}{\sqrt{9}}$$

$$= \underline{2}$$
